EDUCATION

University of Washington, Engineering Department

Seattle, WA

B.S. in Engineering Administration, Concentration: Human-Centered Design & Engineering

June 2026

Activities: TOSA, Alpha Theta Delta Design Fraternity, Design for America, Directed Research Groups, DubHacks Team

Relevant Coursework: Directed Research in Interaction Design · Visual Communication Design · Usability Research Techniques · Interactive Systems Design and Technology · User Experience Prototyping Techniques · Sustainable Design · Concepts in Human-Computer Interaction

SKILLS

Tools: Figma, Miro, Notion, Adobe Illustrator, Adobe Photoshop, RStudio, Lovable, Excel, Tableau

Design skills: Heuristic Analysis, Prototyping, Wireframing, User Research, Information Architecture, Data Visualization, Usability Testing

EXPERIENCE

Experience Designer | *Electronic Art*

Jan 2026 - Present

- Exploring a research-driven capstone with EA Games to explore how **AI can shape second-screen experiences for sports video games**, focusing on player engagement, community interaction, and post-game insights beyond core gameplay.
- Conducting player interviews, contextual inquiry, and usability testing to design and evaluate concepts such as adaptive stat summaries and context-aware companion tools that support how players interact with game ecosystems before, during, and after play.

Product Design Intern | *Tmind AI*

June 2025 - Present

- Designed and shipped UI for core product features including therapist onboarding flow, profile management dashboard, and targeted promotional banners, **reducing onboarding time by 25%** and driving increased therapist engagement.
- Led end-to-end usability research by recruiting and interviewing 15 therapists, conducting moderated testing sessions, and synthesizing findings into **4 major design pivots** that informed product direction.
- Built interactive Figma prototypes used by engineering to accelerate development sprints and align UI specs with technical feasibility, reducing handoff time by 30%.

Creative Team Designer | *DubHacks*

Feb 2025 - Oct 2025

- Co-led the complete branding effort for the Pacific Northwest's largest collegiate hackathon, delivering cohesive visuals and motion assets for **1200+ participants** using responsive web formats.
- Designed **high-fidelity mockups** used to secure over **\$75K in sponsorships** from companies such as T-Mobile, Atlassian, and Amazon, contributing to the event's financial and logistical success.
- Collaborated cross-functionally with Tech, Marketing, and Sponsorship teams to design user-centered experiences under tight timelines, keeping design outcomes aligned with both event goals and stakeholder needs.

UX Researcher | *UW Human Centered Design & Engineering (DRG)*

April 2025 - June 2025

- Designed and iterated an Inclusive Teaching Toolkit prototype in Figma by **translating thematic insights from user feedback** into actionable design recommendations for a department-hosted webpage.
- Conducted A/B testing** and usability evaluations, **applying usability heuristics and WCAG 2.1 standards** to improve navigation, content hierarchy, and accessibility across user groups.

UX Design Intern | *Hugsi*

June 2024 - Dec 2024

- Designed an intuitive admin dashboard that streamlined gift inventory management for internal staff, **reducing processing time from ~15 minutes to ~1 minute per gift**.
- Redesigned key user flows for Hugsi's mobile homepage and profile while translating competitive analysis into branded visuals, **increasing engagement by 26%** and improving App Store discoverability.

LEADERSHIP ACTIVITIES

Design for America | President (June 2025 - Present), Project Lead (Oct 2023 - June 2025)

- Led a team of 6 designers on a year-long project to develop solutions for reducing individual food waste.
- Conducted 12 structured interviews, identified 3 key user priorities, performed a competitive analysis of 6 competitors, and distributed a survey that gathered 100+ responses to inform design direction and empathize with user needs.
- Conducted 2 rounds of usability testings with 12 participants and iterated designs based on real-world feedback.

Taiwanese Overseas Student Association (TOSA@UW) | Art Team Officer (Sep 2022 - Present), Creative Director (Sep 2023 - June 2024)

- Served as the bridge between 43 officers and 6 executive officers, managing seamless collaboration for our annual large-scale event with 4000 attendees, over 10 medium-sized events, and weekly general officer meetings.
- Conducted 9-person art team committee meetings to design for 10 event flyers, 5 fundraisers, and 11 merchandise items.
- Organized Adobe Illustrator workshops within the organization to support the design skills of the team.
